

We have been delighted to hear about your work at home. Please email shall@chiltern.northants.sch.uk or contact the school office if there are any problems.

If you are learning from home, the following activities should take 20-30 minutes each. Complete as many as you are able each day.

Phonics -new sounds to be learnt will be posted on Tapestry each week. There may be videos attached, linked to the letters and sounds website. There are also many sites such as Phonics Play where phonics games can be played. A list of phonics sites was emailed recently but please ask if you need any more help .

Reading- Please continue to read your reading books at home. Let us know if you need any more. Continue to practise your rocket words too. Please continue to develop your child's love of reading through sharing books and stories, talking about what happens in the story. We are hoping to do a Zoom story time. A link will be sent next week.

Maths - daily activities are posted on Tapestry with links to clips and activities on the White Rose website. There are also activities on Twinkl and BBC bitesize. You can also compare size, shape and weight and learn about time and money.

Creative/Science - please show us your drawings, paintings and creations. Maybe you can help with cooking too? We will be posting some fun experiments for you to do.

Physical- we have been joining in with Joe Wicks three times a week. Try to get some exercise when you can.

Writing- kinetic letter formation is posted each week for you to practise. Try some independent writing when you can, writing lists, cards or notes, listening to the sounds you can hear in words. Don't forget how to write your name too.

Keep up the good work and remember we are here to help,
Ms Hall and the Reception team.
